ISSUED SEMI-WEEKLY. MASSILLON, OHIO, MONDAY, JULY 15, 1901 XL—NO 16

## NOTHING GOT AWAY

### All the Contests Won by Massillonians.

### THE K. OF C.'S OUTING.

**The Baseball Game, Though the Score Was 24 to 0, was Exciting in the Extreme, the Rain of Shot From a Near-by Shooting Range Adding Spirit to the Field Work—In the Tug-of-War Massillon Had Such Men as Messrs. Schrader, Ertle and Tordt.**

Massillon and Canton Knights of Columbus, picnicking at Meyers lake Thursday, experienced many a thrill of pleasure and excitement in the course of the extensive doings, but the really extraordinary and sensational event of the day was the advent of Harry Martini Gannon, who looks so much like Mayor Wise that he was promptly mistaken for that distinguished official, and the bands were set to playing "Behold, the Conquering Hero Comes!" while the picnickers threw their hats into the air. The amusing feature of the confusion was that Mr. Gannon, unconscious of being another's double, could not make out what all the ado was about. His friends, however, proved that he lives at 59 Muskingum street, and that he has never been even the bailiff in the mayor's court.

The arrival of an occasional sprinkling of shot upon the diamond from a nearby shooting range, and the persistence with which every particle found its way to a vulnerable spot, introduced spice and zest into the game. In the language of their opponents, Massillon players went into the contest "like a house afire." They finished like a forest conflagration. They mauled the ball to the right, they mauled it to the left, over the fence, under the fence—everywhere but to the places that meant no runs.

Every pitcher that essayed a turn, after a dizzy minute or two, was sent to the bench, and fielders, from sheer exhaustion, were out of business every inning. The score was 24 to 0 in favor of the Massillon knights. The prize was a silver trophy bearing in raised work bats and other things indicative of its character. It will be given a conspicuous place in the local lodge room. Julius Wittman caught and John Nolan pitched for Massillon. Other players were J. Gannon, M. Gannon, E. Sibila, F. Gallagin, J. E. Tordt, A. Ertle and J. Holland.

SOME OTHER CONTESTS.

The other contests of the day resulted as follows:

Fat men's race—Won by J. Edward Tordt, Massillon; prize, box of cigars.

Free-for-all men's race—John Nolan, Massillon; box of cigars.

Single ladies' foot race—Miss Kate Fritz, Massillon; five pounds of candy. Miss Gannon was given a similar reward. She tripped with the victory almost within her grasp, and the committee recognized merit.

Married ladies' race—Mrs. Herbert Rimmele, Massillon; five pounds of candy.

Tug-of-war—Won by Massillon, Team captained by Julius Wittmann. Other members were Edward Ertle, Joseph Schrader, Frank Gallagin, F. Scheer, J. Edward Tordt, Edward Creedon, M. Gannon, J. Nolan, Andrew Ertle, Geo. Lambert and E. C. Sibila; prize, box of cigars.

Single ladies' bowling contest—Miss Eagan, of Massillon, won; prize, silver spoon.

Men's bowling contest—George Lambert, Massillon; prize, silver match safe.

DANCING IN THE EVENING.

About fifty Massillon Knights of Columbus attended the picnic. Many were accompanied by their families. There was dancing in the evening. The party returned to the city on a special car at 11 o'clock.

### MANAGER ARNOLD RESIGNS.

**He Will Leave the Hotel Conrad to Engage in Other Business.**

T. B. Arnold has tendered his resignation as manager of the Hotel Conrad, to take effect as soon as arrangements can be made for a successor. Mr. Arnold has been connected with the house in different capacities since the autumn of 1891. For the past three years he has been the manager of the house, and in that time he has made many friends in the city as well as among the traveling public. He has been an obliging host, and the severance of his connection with the house will be a source of general regret. No arrangements have yet been made for a new manager of the house. Mr. Arnold will engage in other business and will not leave the city.

You can never cure dyspepsia by dieting. What your body needs is plenty of good food properly digested. Then if your stomach will not digest it, Kodol Dyspepsia Cure will. It contains all of the natural digestants hence must digest every class of food and so prepare it that nature can use it in nourishing the body and replacing the wasted tissues, thus giving life, health, strength, ambition, pure blood and good healthy appetite. Chas. W. Cupples, 139 W. Tremont street; Rider & Snyder, 12 E. Main street; L. A. McCuen, 5 W. Main street.

**Do you read the want columns daily?**

### A FINGER CRUSHED.

**Joseph Elsass Meets With an Accident Thursday.**

Joseph Elsass, a machinist at Russell & Company's works, Thursday afternoon, had the forefinger of his right hand so badly crushed that amputation was necessary. Dr. Pumphrey performed the operation. Mr. Elsass was operating a planer when the accident occurred. He resides in East Tremont street.

## A SUDDEN DEATH.

### Caroline Decker Passes Away This Afternoon.

### WAS OUT ON THURSDAY.

**What was Considered only a Slight Indisposition Kept Her in Bed This Morning—At Noon She Came Downstairs—One Hour Later Her Family Found Her Dead.**

Mrs. Caroline Decker died suddenly at the home of her son, John O'Toole, in Orange street, at 1 o'clock Friday afternoon. Mrs. Decker had been complaining of feeling ill for the past two days, but it was simply an indisposition and was not considered serious by any of the members of the family. Thursday, though not feeling well, she went to the store and made some purchases for the household. This morning she was not as well as yesterday and kept to her bed most of the morning. She occupied an upstairs room.

Her son, with whom she makes her home, has been confined to the house with an attack of rheumatism, and a few minutes before twelve o'clock, Mrs. Decker came down stairs to see how her son was feeling. She said nothing, but returned to her room. That was the last that was seen of her alive. About one hour later, when one of the members of the family went into her room, they found that she had expired.

Mrs. Decker was a native of Strasburg and was 54 years of age. She spent the greater part of her life in this city. She leaves the son with whom she made her home and one daughter, Mrs. Charles Wetzel, also of this city. Funeral arrangements will be announced later.

ALEX. MELVILLE SIMS.

Alex. Sims received a dispatch this morning announcing the death of Alex. Melville, the 9-months-old son of his brother, Clark Sims, at Akron. The body will be brought to Massillon today and the funeral will take place from the residence of Mrs. Elizabeth Sims, the child's grandmother. The time of the funeral will be announced later.

MRS. MATILDA BREMKAMP.

Mrs. Matilda Bremkamp, wife of Charles Bremkamp, died at her home in Jackson township at 10:30 o'clock Friday night of heart failure. Although subject to attacks and weakness of the heart for some time, Mrs. Bremkamp's condition was not considered serious. A short time before her death she was apparently in her usual health. The deceased was 64 years of age and a native of Germany. For the past 33 years she has resided with her husband in this vicinity. The funeral will take place from the family residence near the high mill Tuesday morning at 9:30 o'clock, and from the St. John's church at 10:30. The Rev. J. E. Digel will conduct the services. Interment will take place in the Massillon cemetery.

Mrs. Bremkamp leaves besides her husband, four sons and four daughters. They are Lewis, of this city; August, of Newman; Frederick, of Millport; Charles, who resided with his parents: Mrs. Fred Lintner and Mrs. Joseph Crone, of Newman; Mrs. C. H. Young, of Marchand, and Mrs. S. C. Stump, of Toledo.

### "EVENER AND THE LIKES."

**Will the Writing of the Wearers of Lally's Ring?**

"I've made fifteen inventions," remarked Michael Lally, of North Lawrence, in the city today, "and my sixteenth is to be the best of all. I expect to have a ring, which, put upon the finger, will make a good writer out of a poor writer. I expect to have a few finished soon, and show them to the people as cares to see them. No, it won't help the grammar—it's only for the pen work. It makes the writing evener and the likes o' that."

Other things that Mr. Lally has invented are mine drills, upholstered chairs and a pumping-house. He has not yet done any airship work.

"I wish to truthfully state to you and the readers of these few lines that your Kodol Dyspepsia Cure is without question the best and only cure for dyspepsia that I have ever come in contact with and I have used many other preparations." John Beam, West Middlesex, Pa. No preparation equals Kodol Dyspepsia Cure, as it contains all the natural digestants. It will digest all kinds of food and can't help but do you good. Chas. W. Cupples, 139 W. Tremont street; Rider & Snyder, 12 E. Main street; L. A. McCuen, 5 W. Main street

DeWitt's Witch Hazel should be promptly applied to cuts, burns and scalds. It soothes, and quickly heals the injured part. There are worthless counterfeits, be sure to get DeWitt's. Chas. W. Cupples, 139 W. Tremont St.; Rider & Snyder, 12 E. Main St.. L. A. McCuen, 5 W. Main St.

## GET AN EARLY START

### Glass Men Predict Resumption in September.

### THE FINAL SETTLEMENTS

**All of the Glassblowers, Some of Whom had $1,000 Due Them, Have Been Paid Off—Repairs and Improvements Now in Progress at All the Plants.**

An immense amount of money has been paid out by the various glass bottle manufacturers of this city in the past week. July 12 is the day on which the companies are expected to make their final settlements with the men, but in almost every case this was done previously. The Rhodes Glass Bottle Company paid off the last of their employes Thursday. The Massillon Bottle and Glass Company finished its paying several days ago. At the works of the latter, where the men are employed six days a week, there being no Saturday off, the general run of the reserve money was $800, though many received $1,000. This, of course, is exclusive of the $20 a week market money paid the men regularly during the season.

All manufacturers predict an early resumption of operations. Ware on hand is being shipped in large quantities, and the demand, it is expected, will warrant a beginning of work in the first week of September.

Repair work is now in progress at Reed & Company's plant. No increase in capacity or additions to the force are contemplated.

The Massillon Bottle and Glass Company has already engaged about 90 of the 108 blowers that it will employ next year. The work of doubling the capacity of the tanks is being pushed rapidly.

Work on the new ovens at the Rhodes Company's plant was commenced Friday morning.

THE FIRES LIGHTED.

The repairs to the furnaces were not being completed Thursday, operations at the works of the Republic Steel company were not commenced. Fires were lighted today, however, and it is expected that all will be in readiness for work Monday morning.

### WILLIAMS EXONERATED.

**National Secretary-Treasurer Wilson Fully Explains the Matter.**

The following letter from the national secretary-treasurer of the United Mine Workers of America, W. B. Wilson, corroborates the statements made by a committee of Local Union 464, of North Lawrence, and fully exonerates Secretary John Williams, of all wrong doing:

To the Editor of THE INDEPENDENT:

Dear Sir—In your issue of July 6th, a communication appears signed by the Mine Committee of Local Union 464 of North Lawrence, in which it is intimated that some aspersions have been cast upon the reputation of John Williams, secretary of that local union, because of his financial relations with the national office. If rumors of that kind have been in circulation a great wrong has been done Mr. Williams. The facts are these:

The last national convention of the United Mine Workers instructed the national secretary-treasurer to issue a monthly statement of locals three months or more in arrears for dues. The first statement was issued in April, 1901, and Local Union 464 of North Lawrence, O., was on the list. Mr. Williams immediately wrote asking an explanation and in reply an itemized statement was sent him, showing the different payments credited to Local Union 464 for per capita tax. Upon examining the statement Mr. Williams discovered that $9.40 sent by him to Secretary W. C. Pearce in December, 1899, had not been credited and he notified me to that effect. An examination of our books failed to locate the money. I then ask Mr. Williams to furnish me the number of the money order, which he did, and we learned from the postoffice here that the order had been paid to W. C. Pearce, December 22nd, 1899. Again we overhauled our books and finally discovered that the clerk in charge of the ledgers had placed the $9.40 sent in by John Williams, of Local Union 464, North Lawrence, to the credit of Local Union 940 whose secretary is W. J. Williams, North Lawrence. Ex-Secretary Pearce had in the meantime offered to make good the $9.40 if we failed to discover the error.

I make this statement in justice to all parties concerned.

Respectfully yours,
W. B. WILSON, Sec'y-Treas.
Indianapolis, July 9, 1901.

### CARNEGIE'S GIFT REFUSED.

**San Francisco Labor Council Votes Against Acceptance.**

SAN FRANCISCO, July 13.—[By Associated Press]—The labor council has passed, by a nearly unanimous vote, a resolution objecting to the receipt of Andrew Carnegie's gift of $750,000 for a public library.

## TARIFF TROUBLES.

### Japan Wants to Increase Tax on Oil.

### A RETALIATORY MEASURE.

**Reform in Second Class Mail Matter—Enormous Balance in Favor of United States in Our Trade With England—Dan R. Hanna Fails in Effort to Get His Children.**

[By Associated Press to The Independent.]

WASHINGTON, July 13.—The state department has been informed of a movement now on foot in Japan which may result in a tariff war between that country and the United States. The American consul at Hioga reports that the Kioto chamber of commerce has passed a resolution petitioning the Japanese government to raise the duties on kerosene oil from the United States and Russia. It is declared that the step should be taken as a retaliatory measure against the high import duties imposed on Japanese merchandise in the United States and in the Asiatic provinces of Russia. At the same time it is desired to protect the developing of the oil industry of Japan, but the chief object seems to be that of retaliation. The high duties imposed on Japanese merchandise under the Dingley act have rendered the dealers disaffected. The imports from Japan into the United States for the ten months ending April 30 last, aggregated in value $23,511,512. Exports from the United States to Japan for the same period were worth $15,188,744.

Postmaster General Smith has taken up the question of reform in second-class mail with Attorney General Knox. These two cabinet members agree that there is sufficient warrant in existing law for the rigid enforcement of orders against fake publications which have been admitted to the mails as second-class matter. It was at first thought that the postmaster general would issue an order setting forth the views of the department and denying second-class rates to certain publications. It now seems probable that such will not be the course of the department. Investigation has shown that there are so many publications which offer bona fide premiums that a sweeping order would be almost impossible of execution. Instead of laying down a broad rule, the department will conduct its investigations in relation to different publications and determine upon its action in each specific case.

### AMERICA'S TRADE BALANCE.

**Phenomenal Increase of Exports to England.**

LONDON, July 13.—In its issue today The Statist, in an article on the financial position of the United States, will say: "The figures of our own trade with America conclusively show the enormous profits which the United States is making in foreign trade. For the first six months of the present year our imports from the United States have been nearly £69,000,000, as against a little over £59,000,000 in 1900, while our exports were worth only £7,000,000, as against £8,800,000. This means that for the year to June 30 we have bought £148,000,000 in produce from the United States, while it has bought of us £18,000,000. The trade balance in favor of the United States, as respects England, was £130,000,000, as against £119,000,000 for the calendar years of 1900. It appears certain that we shall have to supply considerable gold to the United States and that the value of money in London will advance."

### JUDGE COMMITS SUICIDE.

**Had Retired as Judge of Circuit Court Last Spring.**

CINCINNATI, July 13.—Ralston Russell, son of Judge D. A. Russell, who committed suicide at the Palace Hotel yesterday, arrived today and took charge of the body, shipping it to Pomeroy, O., by the noon train. The son testified before the coroner that his father left Pomeroy for Cincinnati on Thursday, that he was worried and nervous, and had eaten very little for a week, but had given no reason for mental distress. He had no financial embarrassment, and his son believed that he took his own life in a moment of temporary aberration of mind. The judge had retired from the office of circuit judge last spring.

### HANNA WAS TOO LATE.

**Wife and Children on the Way to London.**

NEW YORK, July 13.—[By Associated Press]—Dan R. Hanna's attorneys obtained a writ of habeas corpus, returnable Monday, for his three children, brought from Cleveland by their mother, and a detective was sent to the Hotel Savoy to serve the writ. When the detective, accompanied by Mr. Hanna, arrived at the hotel, he was told that Mrs. Hanna and her children had left the hotel between 7 and 8 o'clock, and took passage on the Menominee, which cleared the bar at 10 o'clock, bound for London.

Later it was learned that Mrs. Hanna was on the Campania. Mr. Hanna went to the vessel and found the Baroness De Polland, a friend of Mrs Hanna, aboard and her state room locked and guarded by a member of the crew. It is supposed Mrs. Hanna is in the state room

### A CRISIS IMMINENT.

**Ohio Man's Views of European Situation.**

LONDON, July 13.—John W. Bookwalter, of Springfield, O., who sailed for the United States yesterday on the Columbia, spent a few days in London. He has made a two-thousand-mile bicycle trip through Italy and southern Europe, and spent much time among the peasantry, studying their condition. He is convinced a crisis is imminent between rural and urban populations of the world, and thinks the struggle began in America. He looks on France as the soundest country in the world, owing to the distribution of wealth between agrarian and metropolitan classes.

### NO FEARS OF UPRISING.

**Foreign Troops Can Cope With Prince Tuan.**

BERLIN, July 13.—The Associated Press correspondent is officially informed that Germany does not regard seriously the more recent news from China which says there are strong indications that Prince Tuan is preparing to march against the foreigners, and that there is danger of another Boxer uprising. It is not believed these reports indicate a renewal of the Boxer movement, and the foreign troops left in China are deemed ample to afford protection against any uprising that Prince Tuan may inaugurate.

### THE GLENN TRIAL.

**Prisoner has Filed Suit for $50,000 Damages.**

PARKERSBURG, W. Va., July 13.—In the Glenn trial today, Ernie Beyers, who roomed with Bert Glenn all the time he was in Williamstown, said he never knew he was not a man. He had visited gambling dens, saloons and other places with Glenn many times, and he always acted like a man in every way. A suit for fifty thousand dollars damages has been filed by Ellis Glenn in the United States court against William and Julius Richardson for kidnapping him at Litchfield, Ill., last year.

### WILL CONTINUE FIGHT.

**Machinists will Work to Secure Strike Funds.**

CINCINNATI, July 13.—[By Associated Press]—Only a few machinists returned to work today, but more are expected to on Monday, as Saturday is a half holiday. The strikers say they will continue the fight, directing their efforts against some plants while allowing the men to work at other plants so as make less demands on the strike funds.

### SPICE MILLS CLOSED.

**Woolson Company, of Toledo, Discharges All Employes.**

TOLEDO, July 13.—The Woolson Spice Company has closed its plant, and the employes, several hundred in number, notified to look for employment elsewhere. The coffee roasting business of the firm will be transferred to the eastern branches of the Havemeyer Company in Brooklyn, N. Y.

### HOT IN KANSAS CITY.

**Thousands of People Sleep Out of Doors.**

KANSAS CITY, July 13.—The thermometer did not fall below 91 all night. Thousands of people slept on lawns and porches, or in the street cars. The thermometer today is higher than yesterday with no prospect of relief.

### POSTOFFICE ROBBED.

TOLEDO, July 13.—The safe in the postoffice at Weston, in Wood county was broken open by burglars Friday morning and five hundred dollars in stamps and thirty dollars in cash stolen. The thieves stole a horse and buggy from a stable near the postoffice in which they made their escape.

A wheelman's tool bag isn't complete without a bottle of Dr. Thomas' Eclectric Oil. Heals cuts, bruises, stings sprains. Monarch over pain.

## STILL UNSETTLED.

### Shaffer Says There Must be no More Delay.

### CONFERENCE IN SESSION.

**Chinese Prince on the Way to Berlin to Offer an Apology for the Murder of Baron Von Ketteler—Servant Girls of Chicago Form a Union.**

[By Associated Press to The Independent.]

PITTSBURG, July 13.—The wage conference over the trouble between the Amalgamated Association and American Sheet Steel Company and American Steel Hoop Company, which had been in session in the Hotel Lincoln, adjourned yesterday afternoon at about 4:40 o'clock without coming to an agreement. Another meeting was to begin at 10 o'clock this morning, and the discussion was to be taken up again on the same lines as yesterday. In connection with this matter President Shaffer made the following significant statement last night:

"The conference must come to an end today. This dispute must be settled one way or the other: if no agreement is reached by tonight the general strike that was ordered for last Monday and postponed for one week at the request of the manufacturers, will proceed. I am still hoping for a seetlement, however."

The time limit had not been set for the conference when the adjournment took place yesterday afternoon. Mr. Shaffer said that he intended to make this statement to the manufacturers this morning when the session opened. He regarded further delay as useless and harmful for both sides. The issue has to be met, he said, and there is no use in dodging it. If the manufacturers mean to settle, he asserted, they have it in their power to make some compromise that will be acceptable to the Amalgamated Association, but thus far they have not made any. The situation, according to the members of the conference, was the same at the close of the meeting yesterday afternoon as it was at the opening. The questions were not settled and no offer had been made toward a settlement.

2 p. m.—The joint conference to settle the strike resumed today. Several members of the conference are arranging to leave today, so some result is expected.

### A TRIP TO BERLIN.

**Chinese Prince will Apologize for Minister's Murder.**

PEKIN, July 13.—[By Associated Press]—The departure Friday from Pekin of Prince Chun, the younger brother of Emperor Kwang Su, who has been selected formally to apologize at Berlin for the murder of Baron von Ketteler, was a spectacular event. A special train took Prince Chun and his suite from here to Taku, from which port he will proceed by steamer to Shanghai. He sails from Shanghai July 20 for Genoa, and will proceed direct from there to Berlin by rail. Prince Chun came to the railroad station in Pekin on horseback. He was gorgeously attired in the royal yellow and followed by a long procession, composed of members of his staff, their servants, and the luggage on carts. Here he was met by the present German minister to China, Dr. Mumm von Schwartzenstein, a German military band and a guard of honor and two of his brothers. Many Chinese had assembled at the station to bid the prince farewell.

### SERVANT GIRLS' UNION.

**Objects of the Organization Formed at Chicago.**

CHICAGO, July 13.—The servant girls and working women of the city have taken the preliminary steps toward the organization of a union, under the direction of the International Union Labor League. Fixed hours of work, more freedom and better conditions generally are the objects sought by the Working Women's Union of America. Another meeting will be held next week, at which it is expected the organization will be perfected. In a speech at the meeting last night, Mrs. Loughridge, president of the Woman's International Union, said: "One of our prime objects will be to gain set hours for household employes. Girls should not be compelled to work from sixteen to twenty hours a day, but should have definite hours and time for amusement and recreation the same as women otherwise occupied. We intend to show housewives that the quality of their service will be improved by giving their help more time for rest."

Mr. John Tippis, Colton, O., says: "Foley's Honey and Tar cured my little girl of a severe cough and inflamed tonsils." Rider & Snyder.

SEMI-WEEKLY FOUNDED IN 1896.

THE EVENING INDEPENDENT is on sale at Bahney's Book Store, Bammerlin's Cigar Stand (Lot-I Conrad), and Bert Hankin's News stand in North Mill street.

LONG DISTANCE TELEPHONE.
BOTH TELEPHONES NO. 60.

TYPOGRAPHICAL UNION LABEL MASSILLON, No. 738

MONDAY, JULY 15, 1901.

Five years ago many of the railroads of the country were in the hands of receivers. Today every railroad is traffic taxed to its utmost resources. Nearly 10,000 miles of new track will be laid this year, against 1,600 miles in 1895.

Had New York or New Jersey repudiated Bryan it would not have been so surprising, but when Ohio turns its back on the Bryanism of Chicago and Kansas City it means that Democratic sentiment against the peerless leader is crystalizing very rapidly.

THE INDEPENDENT shares in Massillon's pride over the nomination of one of its distinguished citizens as lieutenant governor on the Democratic ticket. Many warm friends among the Hon. Anthony Howells's fellow citizens will be sorry to have to vote against him next November.

A significant fact in these prosperous times is that labor is so well employed and well paid that controversies between employer and employe are, as a rule, not for higher wages, but for recognition of various labor organizations. When thousands of men can afford to quit work to insist on technical points it is pretty evident that there are savings laid up somewhere.

The chief statistician of the agricultural section of the twelfth census says that the net additions to farm resources in the ten years between 1890 and 1900 exceed the value of all farm investments in 1850. "The increased wealth of our farmers," he says, "as the result of their last ten years' labor, equals the farm wealth of the nation reported as the outcome of their toil and economies from the settlement of Jamestown to the middle of the nineteenth century." Advances on the stock exchange are unimportant compared with this colossal increment.

An English view of the all-conquering march of American protected industries appears in the London Mail. "Men sometimes speak," it says, "as though the dramatic coup of a Morgan when he acquired control of one of our great shipping lines, or of a Schwab who outbids our steel makers, or of Philadelphia bridge builders who capture the orders for our biggest viaducts, comprised this invasion. They do not. Such items are merely the sensational incidents in a vast campaign. The real invasion goes on unceasingly and without noise or show in five hundred industries at once. From shaving-soap to electric motors and from shirt-waists to telephones the American continent is clearing the field."

Henry Clew's weekly financial review says that in spite of the damage done to the Kansas corn crop, it seems probable that we shall have at least 1,800,000,000 bushels, which, at the highest prices current, will bring increased prosperity where crops are good, as a partial offset to losses where crops are bad. "A smaller crop of oats is expected than last year," continues the review, "but the yield of this grain promises above the average. A magnificent wheat crop is practically assured of over 700,000,000 bushels, the heaviest on record: and as Europe will be forced to make large demands upon our surplus, the beneficial effect of this upon Western trade and our foreign trade balance will be important later on. While crop damages must be conceded, there is nothing yet approaching a calamity."

The "increased cost of living for the laboring man" is a source of bitter reproaches from the opponents of Republican rule just at present, the fact that the improvement in business has been so extensive that people are well able to spend more money seeming to play no part in their argument. The fact is that employes in nearly every branch of business and all sections of the country are well occupied and in numerous instances advances of over 10 per cent in wages have been granted. Dun's Review says that the amount of money in circulation has increased about 2 per cent, and with labor well employed at good pay, retail trade is stimulated. This, in turn, affects wholesale and manufacturing lines, so that all are more prosperous and in better position to meet the slight increase in cost of living. Moreover, deposits in savings and other banks expand rapidly, indicating that money is accumulating despite slightly advanced expenses.

**The last communication received at the state department from the Russian government on the subject of the international tariff differences indicates that there is an apparent desire on the part of Russia to wipe out the record of the past few months and to resume commercial relations on the former friendly basis. No action can be taken by the administration on the proposition made by Russia to remove all the discriminating duties which that government has recently placed on American hardware, machinery, bicycles and other products, provided the United States government will take similar action with regard to the countervailing duties on Russian sugar imported into this country, because the question of the legality of the countervailing duties is now in the courts and it is entirely beyond the power of the administration to take any action until the courts shall have rendered a decision. The Russian proposal shows that a more conciliatory feeling exists on the part of the Russian officials and the prospect of an extensive tariff war between the two countries seems more remote than it has been for several months.**

Farmers who are complaining about the drop in the price of wool will do well to read what the Boston Commercial Bulletin has to say on the subject. The Bulletin quotes a paragraph from the Indianapolis News to the effect that the price of Indiana wool is just what it was in July, 1897, the price having fallen from 29½ cents in January, 1900, to 20½ cents in May of the present year, and says in reply:

"Exactly so. The price of Indiana wool is just where it was in July, 1897, when the enactment of the Dingley tariff saved the farmers of Indiana from the legislation so loved by the Indianapolis News. Incidentally it may be remarked that the price, 29½ cents, received for Indiana wool in 1899, is the highest on record. Prices on wool are low as compared with 1900, thanks to the drop in wool all over the world, but, thank God, they are not at the ruinous level that would exist if the Dingley tariff were not in force with wool abroad breaking all records for cheapness, nor have they even dropped in the United States to the low level secured for American wool in 1896 by the Indianapolis News and its allies."

# POLES STILL STAND

## But Watchmen Have Nightly Guarded Them.

## PATROL TO BE REMOVED.

**The Massillon Telephone Company Says that Tonight the Poles Will be Left Unguarded Just to See What Will Happen—W. H. H. Wuertz, Who Says They Must Go, Sends for His Lawyer Son.**

The poles erected by the Massillon Telephone Company in the vicinity of the property of W. H. H. Wuertz, at Dalton, still stand, despite the frequently expressed threat of Mr. Wuertz to saw them down. Two of the poles, the other morning, were found to have been partially sawed through, and a strong wind might have brought them down. The linemen used iron braces to strengthen them.

The telephone company stationed a guard over the poles after that, one or more men constantly patrolling the half mile over which the system of poles extends. It is stated by the representatives of the company, today, however, that there are to be no guards tonight. "We want to see just what will happen," they say. "If things go wrong perhaps we can do something afterwards. It's sure we can't keep a force on guard all the time."

Mr. Wuertz has sent for his son, Attorney E. F. Wuertz, of Columbus, and it is believed that the war of the future will be a legal one. Angry debates on the situation are the order of the day at Dalton.

# A FATAL MISTAKE

## Is Often Made by the Wisest of Massillon People.

It's a fatal mistake to neglect backache.

Backache is the first symptom of kidney ills.

Serious complications follow.

Doan's Kidney Pills cure them promptly.

Don't delay until too late.

Until it becomes diabetes—Bright's disease.

Read what a Massillon citizen says:

Mrs. W. H. Koons, of 4 Francis ave., says: "Exposure incident to thirteen years of army life seriously affected Mr. Koon's kidneys. The curative value of Doan's Kidney Pills coming to his knowledge, he got a box at Z. T. Baltzly's drug store, 12 South Erie street, opposite the opera house. Use in his case proved the medicine to possess great soothing and healing qualities. He recommends Doan's Kidney Pills whenever he hears anyone complaining of backache or kidney trouble."

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no substitute.

A bad complexion generally results from inactive liver and bowels. In all such cases DeWitt's Little Early Risers produce gratifying results. Charles W. Cupples, 139 W. Tremont St; Rider & Snyder, 12 E. Main St.; L. A. McCuen, 5 W. Main St.

Thoroughbred bulls have done more to civilize and develop Texas than any other agency.

If the farm is getting too rich to raise small grain, rent it. That will fix it in short order.

The agricultural department of Kansas advises against the growing of the sugar beet in that state.

A Missouri apiarist claims to have taken eight tons of honey last season from 50 stands of bees.

We have tried to locate the biggest corn husking lie of the season and think that Iowa claims the prize winner.

It is hard to see why the users of oleomargarine are willing to pay tw prices for it just to have it colored in imitation of butter.

The value of manure depends very largely upon what the stock is fed. Nitrogenous foods make far better fertilizer than do carbonaceous ones.

You should make veal of the Jersey steer calf if for no other reason than that some sucker will try to make a beef critter out of him later on if you don't.

All kinds of nursery stock will be higher this year. We do not object to the increase of price if the nurserymen will only give us the sorts we think we are buying.

It is worth noting that all the countries of Europe where agriculture is in an advanced stage are giving very much attention to the culture of the sugar beet.

The Asiatic breeds of poultry are th only ones worth caponizing. To attempt this work with the small breeds is like trying to make beef critters out of Jersey steers.

The bur oak tree best survives the effects of settlement and cultivation of any of our native forest trees, yet even the bur oak will not endure the continuous tramping of stock around its roots.

Quite a number of feeders in the west are working out the problem of feeding 32 cent corn to 4½ cent steers. They will know all about it when they sell and sugar off and will never try it again.

The first steam sawmill was built at Saginaw, Mich., in 1834. In the 66 years since that time the splendid forests of the North American continent have fallen victims to the insatiate maw of these mills.

A couple of Tennessee farmers recently fought to a finish, both being kneed in a row over the ownership of an old corn planter. The line fence or the want of it has usually been the moving cause of this class of scrapping.

The happy combination of oatmeal and whisky which developed the canny Scotsman does not work well in this country. The tendency is to reduce the oatmeal and increase the whisky ration, throwing the ration out of balance.

In a general way it may be said that it is always easier to get rid of surplus water from a tract of land than to counteract a lack of moisture. Drainage methods are comparatively simple when compared with any means of irrigation.

Choice separator creamery butter has come to be standard of excellence for all butter. Time was when Herkimer and Delaware (N. Y.) butter made in June and marketed in winter was the standard, but that sort would now go for soap grease.

We saw recently a five acre block of very handsome and thrifty black walnut trees set out about 20 years ago by some progressive man. These trees will become as the years go by a better and more enduring monument to this man than he could buy for $2,000 of any tombstone agent.

The Chicago university, the favored recipient of almost untold wealth from the coffers of the rich men of the country, is busily engaged in demonstrating upon how small a sum of money a live human can subsist in this country and has got it down to 15 cents a day. The Lord save America when any such problem will have to be seriously considered.

The railways have well nigh ruined the commerce of our inland rivers, and it is time that congress noted this fact in the matter of appropriations for river improvements. It is stated as a fact that on the Missouri river above Sioux City the amount of money spent by the government equals $3,000 for every ton of freight sent by the river boats; this for the past year.

### DECORATION OF HOME GROUNDS.

The real genius of landscape gardening lies in being able to closely imitate nature. If the home grounds are laid out and planted with shrub and tree in some formal and mathematical plan, the pleasing effect of such home decoration is wholly destroyed. Nature will teach us so much if we will only study her laws and her work. Just compare for artistic effect a large front yard laid out on the square, trees planted in rows both ways, a straight walk from the gate to the house, long and straight flower beds, with some wood-plant you can call to mind where [illegible], vines and blue grass in negligent, riotous luxuriance, yet in perfect harmony, halted you as you saw them and made you say, "What an ideal place for camping out or for a picnic!" Note nature's work where a tract of timber tapers off on to the prairie; how little by little the tree growth is lessened and the shrubs take its place until a fringe of hazel brush and sumac will blend with the prairie grass, forming a perfect setting for both timber and grass. This suggests irregular grouping of trees on the lawn surrounded by a variety of shrubs. Nature never makes an artistic blunder when she decorates the sides of some gorge or ravine, some hillside or glade, some crag or plain. A red cedar clinging to some quarry face, a bed of bluebells making an azure carpet under some thick topped linden, a group of wild crab apples on some bench above the river, a June laboratory of fragrance, a Virginia creeper enlacing the great oak and clinging blood red during the Indian summer days to the gray heart of the giant, the partridge berry rioting in the decaying mold of an old stump tenderly covering the sepulcher of primeval majesty with a fretwork of verdancy and delicacy in summer and gray and yellow in winter, or note a grapevine enswathing the old tumble down rail fence and the neglected roadside decorated with the royal gold and purple of the goldenrod and aster or the decaying boards of an old fence or the shingles on the roof of a pioneer shed embossed with a dainty filigree of lichen—everywhere the most refined and artistic taste both as to nature of decorative material and harmonious blending of color. Thus learn and, so far as may be possible, pattern after nature's methods in everything pertaining to the beautifying of the home grounds.

### CUSSEDNESS AND THE COW.

For a fact there have been more ingenious rascality and cussedness developed in connection with the single item of cows' milk and its products than in any other thing produced on a farm. The dairyman early learned to water and skim it, the milkman who peddled it to adulterate it with formaldehyde and silicylic acid to keep it from souring, the butter maker to work casein and water into the butter, and then the steer man and the hog man and the cottonseed oil man each took a hand to fraudulently beat old bossy out of her vested rights, while only a few commission men can handle the butter and keep the Ten Commandments. Think of a well bred cow, one of the Creator's best gifts to man, having as competitors the pump, the steer, the hog, southern oil mills and northern drug stores! The wonder is that she is willing to do business at all.

### NORTHERN TIMBER LANDS.

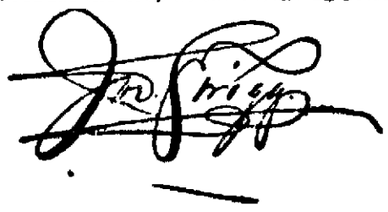
The cut off timber lands of northern Wisconsin and Minnesota would prove to be of especial value for the raising of all small fruits, especially strawberries. It is the man who can put the latest grown berries on the market rather than the earliest who can make money out of his berries. The latitude of these lands and their reliable rainfall specially fit them to produce a late berry. Raspberries and blackberries, which are native to that country, would also do well there. Then the best potatoes on earth can be there grown, while timothy and the clovers seem to grow spontaneously wherever the land is cleared. While the winters are long, there is plenty of winter work in the woods and through much of the country a home market for all a man can produce on his farm. It is a country worth looking up if one is seeking a home.

### WHAT TIRES A WOMAN.

One of the things which tire out the farm wife is the irregularity of the men folks in coming to their meals. Next to having to burn green wood or bring all the water needed for the house from the stock well five rods from the kitchen door, this slipshod way of coming into meals at any time is the most wearing on the goodwife. When a Waterbury watch can be got for $1 and as there is time to wind it three times during a forenoon if necessary, any man should be washed and ready to sit down to dinner at 12:30 if that is the hour fixed. No man should expect his wife to meet him with a smile when he is uselessly and carelessly late to his meals.

### PROFIT IN POTATOES.

The potato crop, taking an average of ten years, is a very profitable one in all localities where the tuber will do well. A friend who has planted an average of 18 acres during the past ten years in southern Minnesota tells us that the average crop has been 150 bushels per acre, average price received 30 cents and cost to grow and market 10 cents. This gives a net profit of $35 per acre year by year, with the added benefit of growing a crop which specially fitted the land for almost any sort of a following crop. The best machinery is necessary to produce the crop at the foregoing price.



No substitute has yet been found for the wooden railway tie.

There is no better fertilizer for the garden or lawn than well rotted barnyard manure.

The big ears of corn give a very satisfying thump as they strike the throw board this fall.

Now that election is over and the corn picked, let us have as good a time as we can this winter.

Professor Atkinson states that $1,000,000,000 is lost every year in this country as the result of bad cooking.

The year 1900 has given the cash renter of a farm a good show. He has been able to pay his rent and make money.

A Rhode Island pot hunter was recently fined $25.45 for shooting a robin in that state, where these birds are protected by law.

The average weight of all the sheep killed at Chicago for six years past has been 88 pounds, of hogs 235 pounds and of cattle 1,082 pounds.

If America's 76,000,000 people should eat only one-fourth of a pound of beef a day, it would take 23,750 average steers to furnish the meat.

An orchard of Wealthy apple trees ten acres in extent paid the owner an even $1,000 this year. This was in Minnesota. The trees were 10 years old.

The government has 46,772,129 acres of land withdrawn from public entry as forest reserves. The most valuable of these lands are on the Pacific coast.

If the politics of this country is like the maple sirup furnished to go with the buckwheat cakes eaten by the American people, the country is in a pretty bad way.

As a man gets old he likes better the old and steady horse to drive and work with. There is a good deal of comfort associated with the horse which will stand without tying.

Considering the ability of Iowa stockmen in raising fine beef critters and fat hogs, altogether too many of the boys blow out the gas when they go into Chicago with their stock.

Congressman Lacey of Iowa has lately been presented with a very fine watch in recognition of the work done by him, at the last session of congress in behalf of the birds of America.

The treasury department recently ruled in a case where a cow and her calf were imported from Mexico into this country that such animals were household effects and not subject to duty.

The almost total diversion of the waters of the rivers which empty into the Great Salt lake in Utah for the purposes of irrigation is resulting in the drying up of that great inland body of water.

A clover freak came under our notice lately, that of a crop of seed being obtained from a clover seeding with oats last spring. The warm weather and abundant moisture of October made this possible.

The high bred Angora goat Lazarus was sold for $700 at Kansas City lately. If men generally understood what goats will do in clearing up brush lands, there would be thousands more of them kept.

The inmates of the North Carolina penitentiary are largely employed in raising peanuts, and they raise so many of the goobers that the farmers of that state are protesting against their being thus employed.

If a farmer wants to buy a $69 range of a stove peddler when he can get the same article for $46 of his local hardware man, he should be allowed to do so without being criticised. It is strictly his business.

The increase in live stock in this country is not keeping pace with the increase in population. This fact settles the question of whether the raising of beef animals is likely to be profitable in the future.

There are great possibilities connected with agriculture in the south, especially in the line of fruit culture and the production of early vegetables for the northern markets. We note a return this year from 125 acres of land in the state of Mississippi planted to early vegetables of $10,000, and in addition to this after the vegetable crop was disposed of the land was planted to cotton and produced over a bale to the acre. Of course land thus drawn upon must be expensively fertilized.

# TRADE ON EVEN COURSE.

## Prospects Seem Good In Different Lines—Damage to Corn Apparently Not General.

New York, July 13.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

General business continues its even course, with all the leading industries well employed and with confidence expressed on every hand. Bountiful crops of wheat seem assured and the damage to corn, while considerable in some directions, does not promise to be sufficiently general or serious to at all impede the progress of the country. Labor troubles are in process of settlement and speculators have been responsible for most of the unrest which has been reflected in the markets.

Steel mills are actively employed and there is a distinct improvement in the demand for finished products, while quotations are without alteration. In bars for use by makers of agricultural implements there is a brisk movement, plates are taken readily, and there is no sign of diminished purchasing in structural material. Rails are ordered freely, with notable pressure for trolley and other light weights. Billets are more quiet and few new transactions are recorded in pig iron. The total number of pig iron furnaces in blast on July 1, as recorded by The Iron Age, was but three less than a month previous, and the weekly capacity was 210,950 tons. Although this is a trifling decrease of 5,555 tons, compared with the productions on June 1, it far exceeds all earlier records. On July 1, 1900, the weekly output was 283,413 and in 1899 it was 263,363 tons. The most startling and gratifying feature of the situation is the decrease of 15,215 tons in furnace stocks, notwithstanding an output at the rate of over 1,100,000 tons annually.

Grain crops this season are occasioning much uneasiness among speculators owing to the extremely complicated situation. According to latest official and unofficial prognostications there is reason to anticipate the heaviest wheat yield ever harvested, and making the customary allowances for domestic consumption, even with the small supplies on hand when the year opened, there appears available for export about 50 per cent more than went abroad in the year of greatest shipments. Yet prices are far above the low record and vigorous rallies follow each decline. Extensive needs abroad continue, the movement from Atlantic ports for the week amounting to 3,208,634 bushels, against 2,615,677 last year. Corn exports receipts were 4,579,378 bushels, against 2,618,667 last year. Cron exhibited remarkable strength, drouth and heat since July 1 giving reason to expect less than the official report, which indicated more than two billion bushels. This cereal is now at an exceptionally high point, and estimates of 200,000,000 bushels for export are too high, as foreigners will not buy freely at the enhanced value.

Failures for the week numbered 208 in the United States, against 196 last year, and 27 in Canada, against 24 last year.

### SOME LOSSES IN PRICES.

#### Drastic Process of Liquidation in Stock Market Friday.

New York, July 13.—Friday's stock market was submitted to another drastic process of liquidation, which caused some severe losses in the prices of stocks. In the late afternoon there was a substantial rally, which wiped out important proportions of the extreme declines. The late recovery was extremely erratic and was unsteadily held. The closing was irregular, but with prices near the top on the recovery. There seemed to be no new cause to induce the continuance of the selling movement beyond those of a technical nature. The bears were the active factor in breaking prices, but the speculators long of stocks stood passive without and resistance in the shape of buying to support the market. The banks continued keenly alert to the course of prices, and their continual demands for additional collateral as the fall in prices encroached upon the margin of valuation as collateral compared with the market valuation forced additional liquidation on the exchange. The fact that assurances were given Thursday that an official statement would probably be made before the end of the week of the terms of the Northern Pacific settlement caused disappointment over the non-appearance of such a statement Friday and caused some recurrence of uneasiness lest renewed discord should develop in that quarter. Under the flood of selling orders thrown upon the market by the influence of the various discouraging factors there were declines below Thursday night's level for Wabash preferred of 8 points, Union Pacific 7¼, Atchison 5⅝, preferred 5¼, St. Paul 5¼, Iowa Central preferred 5¾, Rock Island and Delaware and Hudson 5, Chicago and Alton and Texas and Pacific 4½, and St. Louis and San Francisco 4. The late rally, which materially modified these declines, was primarily due to the oversold condition of the market, the bears having operated on the short side with great boldness throughout the week. The prospect of a favorable bank statement was also a factor.

The railroad bond market was only moderately active and weak in sympathy with stocks. Total sales, par value, $3,820,000.

U. S. new 4s declined ¼ and the old 4s and the 5s advanced ¼ per cent on the last call.

### President of Chili Dead.

Buenos Ayres, July 13.—Senor Federio Errazuriz, president of Chili, who had been in feeble health for more than a year, is dead.

### MRS. RODGERS SECURES DIVORCE AND ALIMONY.

Buffalo, July 13.—Florence E. Rodgers, daughter of Kate J. Adams, for whose alleged poisoning Molineux is now under sentence of death, was granted an absolute divorce by Justice White, and the custody of her children and $2,500 alimony.

# LETTER FROM POPE.

## He Expressed his Great Interest In the Catholic University.

## SHOULD BE MORE STUDENTS.

**Points Out to Bishops Necessity of Sending Men to Washington, as it Will Benefit American Church—Letter to Cardinal Gibbons.**

Washington, July 13.—Cardinal Gibbons has received a letter from Pope Leo XIII, of which the following is a translation:

To our beloved son, James Gibbons, Cardinal Priest of the Holy Roman Catholic Chuch, Titular of St. Mary's beyond the Tiber—Our beloved son, health and Apostolic blessing:

The great interest with which, from the very beginning of our pontificate, we have regarded the church in the United States of America caused us, among other things, to urge the speedy founding of a great university at Washington, and, once founded, to strengthen it with our authority and every evidence of good will. For the needs of this age have been especially dear to our own heart, namely, that the young men who are the future hope of the clergy should be most thoroughly imbued, first, indeed, with virtue, but at the same time with Divine and human learning also. What we have learned from time to time concerning the Washington university has shown us that our confidence has not been misplaced; and now the report which you have just made to us testifies that it is taking on a still more gratifying growth, both through the generosity of Catholics and through the skill and influence of its teachers. One thing still remains to be desired, and that is that the noble institution should increase in the number of its students, and this is to be effected by the interest and zeal of the bishops. If, perhaps, by sending students to Washington, they seem for the time to be depriving themselves of useful workers in their dioceses, they will, in the end, reap a far greater gain both for themselves and for the whole American church, since the clergy shall be educated under one and the same teaching, and animated by one and the same spirit.

Hoping for the accomplishment of these good things, with the same desire with which you are striving for the good and honor of your churches, we most lovingly impart to our beloved son, to the rector, the professors and the students of the Washington university, the apostolic blessing as a pledge of our love.

Given at Rome from St. Peter's, on the thirteenth day of June, 1901, in the twenty-fourth year of our pontificate.

### PRINCESS PLEAD FOR MERCY.

**Prisoners In U. S. Ship Released For Her Sake.**

Copenhagen, July 13. — Crown Prince Frederick received Lieutenant Commander E. V. Hughes, of the Massachusetts school ship Enterprise, at the palace. Lieutenant Commander Hughes was presented by Acting United States Minister Freeman. Lately the crown prince and his family visited the United States training ship Hartford, and received the royal salute, and they were entertained by Commander J. M. Hawley, of that vessel.

Acting Minister Freeman and his daughter, who accompanied the royal party, spent an hour in inspecting the Hartford and in taking photographs.

Several sketches and autographs were inscribed in a "memory book" for Prince Valdemar, whose father, the Duke de Chartres, participated in the Civil War. The Princess Valdemar begged for the release of 14 men who were undergoing punishment on board the Hartford. The request of the princess was granted.

### ANTI-CIGARETTE LEAGUE WERE HOLDING A CONVENTION.

Buffalo, July 13.—The American Anti-Cigarette league, with a membership of nearly 300,000, began its first international convention Thursday in this city. The committee on credentials reported nearly 600 accredited delegates, representing anti-cigarette leagues of almost every section of the United States and Canada. The report of the secretary showed an increase in membership during the year of upward of 100,000. Among the leading cities reporting new memberships were Pittsburg and Allegheny, 19,000; Louisville, 12,500; Buffalo, 12,000; Toronto, 10,000; Washington, D. C., 6,000; Fort Wayne, Ind., 3,000; Columbus, O., 6,000; McKeesport, Pa., 2,500; Akron, O., 2,000.

### NEW MAINE TO BE LAUNCHED.

**Cramp Company Notified Secretary of Navy of Date.**

Philadelphia, July 13.—The Cramp Shipbuilding company notified the secretary of the navy that the battleship Maine would be launched on Saturday, July 27, at 11 o'clock a. m. It is understood at the yard that there will be no special ceremonies on the occasion, as had been anticipated. The launching will be effected without any extra display, and in this respect the affair will be much the same as previous launchings at Cramps. Invitations will be confined to naval officials at Washington and a few friends of the builders.

The construction of the Maine was begun on Feb. 15, 1899, and the contract called for the completion of the ship on June 1 of this year, but work on her was delayed by the controversy arising over the price of armor plate. The Maine is now about 60 per cent completed.

### MRS. DAN HANNA ARRIVED.

**Reached New York With Children. Outwitted Officers at Cleveland.**

New York, July 13.—Mrs. May Harrington Hanna, the divorced wife of Daniel Hanna, arrived in this city, accompanied by her three sons. Her right arm was in a sling, and, though she did not say so, it is believed that she injured herself by climbing a fence back of her residence in Cleveland to avoid the deputy sheriffs. She refused to admit her identity to the reporters.

Mrs. Hanna was accompanied by a young woman dressed in mourning. A young man was at the Grand Central station to meet the party. Mrs. Hanna, the children and the strange young woman took a cab to the Savoy hotel, where they registered as the Baroness d'Palland, Cleveland; Mrs. R. W. Jones, family and maid, Boston.

Cleveland, O., July 13.—An attempt to serve an injunction on Mrs. May Harrington Hanna, the divorced wife of Daniel, the son of Senator Hanna, was blocked Thursday by Mrs. Hanna's ingenuity. Her former husband sought to restrain her from taking their three children from the city to go on a European tour.

When the officers went to Mrs. Hanna's home the maid kept them so long at the door that she was enabled to slip out of the rear entrance with the children and get safely away on a train to New York. A mortgage for $8,000 on her Prospect street home was filed late Thursday afternoon.

By the provisions of the decree of divorce Mrs. Hanna was to have charge of the children, while her husband was to pay their expenses. Last year, upon her return from a European trip, Mrs. Hanna presented a bill for $9,851 as the children's share of the expenses. Mr. Hanna refused to pay, and a suit for the money is pending. To prevent a repetition of this performance he secured an injunction to prevent Mrs. Hanna from taking the children from the county.

Cleveland, July 13.—Senator Hanna was appointed guardian of Dan Hanna's children.

### ONE MASKED MAN KILLED.

**Other Three Fled—Attempted a Robbery.**

Pottsville, Pa., July 13.—Four masked men entered the hotel of Peter Hoke, at Yorkville, and entered into a scuffle with the proprietor and Michael Ratzel and George A. Wachter. It resulted in the killing of one of the strangers and the wounding in the thigh of the left leg of Mr Hoke, who shot his assailant dead. The men were bent upon robbery, but were beaten off. The three escaped, leaving the dead man behind.

The body of the dead burglar was identified as that of Charles E. Linebar, whose parents live at Palo Alto. Linebar has been away from home for six months or more. He served in the United States army in Cuba. The parents will take charge of the body. He was 29 years old.

### COLUMBIA WON AGAIN.

**Defeated Constitution—Independence Lost Topmast.**

Newport, R. I., July 13.—The Columbia again defeated the Constitution in a race by a margin in corrected time of 2 minutes and 19 seconds, the Independence being once more the last boat after losing her topmast at the very start. The Boston yacht, however, sailed such a remarkably plucky race, after being shorn of her top gear, that it was generally believed here last night that she would have won the race but for the accident.

### BOY DROWNED WHILE COMPANION SOUGHT HELP.

Uniontown, Pa., July 13.—Lorin W. Bolen, 12 years old, son of Allen Bolen, of Smithfield, was drowned in the Taylor coke works reservoir. He was sitting on an overhanging boardwalk watching a companion, when he became dizzy and fell into 11 feet of water. His companion was so excited that instead of swimming to Bolen's rescue he rushed off to get help, and before returning Bolen had sank for the last time. His father was almost frantic and hauled the body of his boy home on his lap in a buggy, a distance of two miles. This is the sixth son Bolen has lost by sudden death.

### KNIGHTS OF PYTHIAS MAY GO INTO THE COURTS.

Chicago, July 13.—The supreme lodge of the Knights of Pythias has adopted a resolution instructing the supreme chancellor and board of control of the endowment rank to prosecute civilly and criminally all persons connected with the deficit of $500,000 in the funds of the endowment rank. The lodge also instructed the chancellor and board of control to proceed with a view to expulsion against members of the order guilty of violating their obligations in the handling of funds.

### YOUNG PEOPLE'S UNION WILL MEET AT WINONA.

Richmond, Ind., July 13.—The program issued by the national convention of the Young People's Christian union, of the United Presbyterian church, which meets at Winona, Ind., July 24 to 28. It is believed there will be about 5,000 visitors from the United States and Canada. Among those on the program are the Rev. Robert McW. Russell, the Rev. D. C. Martin and Peter Dick, all of Pittsburg.

### MRS. IDA BONINE HAS BEEN INDICTED.

Washington, July 13.—The grand jury, after several weeks' investigation, has returned an indictment for murder against Mrs. Ida Bonine for the alleged killing of James S. Ayres, a young census clerk.

### SOLD 100 ACRES OF COAL LAND FOR $20,000.

Washington, Pa., July 13.—A sale of coal land was reported from Greene county by Mrs. Belle Turner, who sold 100 acres near Rice's Landing to the Consolidated Coal and Coke company at $200 an acre.

# MOB AFTER BRUTES.

## Negroes Assaulted Young Lady In Populous Section of Kansas City.

## HER ESCORT STRUCK SENSELESS

**Eight Suspects Arrested, Two Being Identified—Crowd Surrounded Jail. Driven Off—Later Raided Negro Section, Beating Negroes.**

Kansas City, Mo., July 13.—A large crowd of excited men and boys surrounded the county jail here last night clamoring for vengeance against three negroes, who criminally assaulted Miss Grace Davis, Wednesday night, in a populous and highly respected neighborhood. Eight suspects, two of whom have been identified, have been held at the jail. All but two of the negroes were slipped away to the workhouse.

The crime was one of the most daring outrages ever perpetrated here. Miss Davis and her escort, Vernie Newton, were walking together, and at Nineteenth street and Woodland avenue three negroes sprang upon them from behind. Newton was knocked senseless and Miss Davis was dragged 400 feet into a private park and assaulted. When she recovered consciousness her escort was still insensible. Both were in a critical condition.

The mob took to beating negroes, with whom a quarrel could be provoked. A number of pistol shots were fired, but no one wounded. The crowd began to diminish.

Policemen finally drove the mob from the court house block, but about 500 men remained in the streets about a block away.

Later the mob seemed to have abandoned its lynching plan. About 500 men, in crowds, were raiding the negro quarter in the North End, chasing and beating negroes and smashing windows.

### TO MOVE OTTERBEIN COLLEGE.

**Money Subscribed at Greensburg and Dawson to Place It at Dayton.**

Greensburg, Pa., July 13.—The Rev. W. R. Funk, publishing agent of the United Presbyterian publishing house at Dayton, O., was here in the interest of the removal of Otterbein university from Westerville, O., to Dayton.

He succeeded in getting $5,000 from Keister Bros., $5,500 from J. W. Ruth, of Scottdale; $1,000 from E. M. Gross, of this city. Otterbein university is the college which H. C. Frick attended and it is expected that he will make a handsome donation toward the expense of removal. Mrs. Philip Cochran, of Dawson, agreed to build a $25,000 dormitory in the event of the college's removal. Dr. Funk went to Johnstown, where he expects to get donations.

### ELEMENTARY EDUCATION.

**National Educational Association Dwells Upon Its Importance.**

Detroit, July 13.—The National Educational association last night, at the last session of its fortieth annual convention, adopted a declaration of principles, declaring that the problem of elementary education is the most important one with which the state must deal.

The work of the bureau of education under Commissioner William T. Harris was endorsed and the association declared that its powers should be extended so that it should have jurisdiction over educational matters in all of our new possessions. Compulsory educational laws and the consolidation of rural schools were endorsed and state support of institutions for the training of teachers is recommended.

### JUDGE RUSSELL SUICIDED IN CINCINNATI.

Cincinnati, July 13.—D. A. Russell, of Pomeroy, judge of the circuit court and president of one of the banks, killed himself in his room at the Palace hotel with a revolver. He was a prominent Republican and candidate for the nomination of supreme judge before the Republican convention in June.

### BRITISH HAD THREE KILLED AND SEVEN WOUNDED.

London, July 13.—A dispatch from Lord Kitchener, dated Pretoria and made public, says the Boers attacked a constabulary post at Houtkop, July 11, capturing a seven-pound gun. They were eventually driven off. The British loss was three men killed and seven wounded.

### Mr. Hummel Better.

London, July 13.—A. H. Hummel, the New York lawyer, who was injured in a carriage accident on Northumberland avenue, July 9, is convalescing rapidly Mr Hummel has received many callers, among them Sir George Lewis, the well-known lawyer, and Mrs. Langtry.

### Increase For Some Engineers.

Altoona, Pa., July 13.—The freight engineers on the Pittsburg division of the Pennsylvania Railroad company were granted an advance in wages by General Superintendent J. M. Wallis. The raise, which applies only to engineers of the larger locomotives, advances the low rate day from $3.50 to $3.70 and a high rate day from $4.10 to $4.35. The high rate day is run between Altoona and Pitcairn and a low rate a partial trip.

**The Chinese began to write books before they migrated from the region south of the Caspian sea. Two of their greatest literary productions are a dictionary in 5,020 volumes and an encyclopedia in 22,037 volumes.**

### NEWSPAPER WAS TIED UP.

**Reporters on Columbus Press-Post Struck—Printers, Stereotypers and Pressmen Joined.**

Columbus, O., July 13.—Troubles in The Press-Post Friday culminated in a lockout of the writing force, all of whom are members of the News' Writers' union. They were informed that their services were not needed. Students from the State University School of Journalism were put in their places. The union printers refused to set the copy the new men prepared, and walked out, followed by the stereotypers and pressmen. No noon edition was issued.

None of the regular editions appeared Friday. The management and representatives of the union were in conference during the day, but nothing definite was arrived at.

The writing force claimed the lockout was an attempt to abolish unionism on the paper, while the management stated that the men struck to secure the reinstatement of a city editor and railroad reporter, who were discharged earlier in the week for failing to get a report of the wreck of the Pennsylvania express train in the yards here.

### ASSESSED 100 PER CENT.

**Capital Stock of the Seventh National Must Be Made Good. Dawes Takes Action.**

Washington, July 13.—Comptroller Dawes received the preliminary report from the receiver of the Seventh National bank, of New York city. The receiver says that his estimate of the value of the assets is of course only approximate. He estimates the amount which finally will be recovered for the depositors from the assets, including stockholders' assessment, at about 80 cents on the dollar.

The receiver says that his estimate of the value of the Marquand collateral is less than is claimed by the directors of the bank, and it is possible on this account that the final collections may be somewhat better than the receiver's estimate.

Comptroller Dawes said that all transactions connected with the advance of cash to the bank just prior to its failure are being carefully investigated by counsel, and that all legal rights of the depositors will be protected in this connection. Comptroller Dawes ordered an assessment of 100 per cent on the $500,000 capital stock of the bank.

The report of the receiver contains no reference to any of the investigations now being made into the question of the existence of criminal infractions of law. All these matters are under the charge of the department of justice.

### THREE AMERICAN LOOTERS SENTENCED IN CHINA.

Tien Tsin, July 13.—James W. Ragsdale, American consul here, has sentenced three American looters, caught in the Chinese quarter of this city, to four years imprisonment in the American jail at Shanghai. Mr. Ragsdale has turned over two Europeans caught looting to the consuls of Great Britain and Denmark respectively.

### Man Wounded Wife and Suicided.

Shamokin, Pa., July 13.—Solomon Haas, a young man residing at Wilburton, shot his wife, after which he sent a bullet through his heart, death resulting instantly. His wife will likely die, the bullet lodging in her back. The shooting occurred at his residence. Haas was of late very jealous of his wife.

### SOME NEWS IN BRIEF.

About 100 clerks of Kittanning, Pa., formed a union.

Colonel James M. Guffey will build a residence to cost about $50,000 at Beaver, Pa.

An anti-saloon league has been formed in Westmoreland county, Pa.

Joseph N. Hanks was drowned at Johnstown, Pa., while bathing.

The state board of health in session at Reading, Pa., has collected data showing that there are 2,000 cases of smallpox in Pennsylvania.

Edward Collins, an actor, of Cumberland, Md., has entered suit for absolute divorce from his wife Mary Collins. They were married in 1893.

It is said that a large deal in coal lands is soon to be made in Somerset county, Pa., whereby a syndicate of New York and Boston men will acquire 150,000 acres of land.

### Very Like a Scandal.

"This dollar that I hold in my hand," he said, "reminds me of a deep, dark, scandalous secret."

"Oh, George!" his wife exclaimed, dropping her hands in her lap and bending forward eagerly, "tell me about it."

"Yes," he went on, "it reminds me of a secret of that kind, because it's so hard to keep."

And then she refused to speak to him for three hours.—Chicago Times-Herald.

### It's Withholding That Costs.

Diner—Come, tell me straight. Is it any real advantage to a man who gives you a tip?

Truthful Waiter—Honestly, I can't say that it is, but it is apt to go hard with the gentleman that doesn't tip me.—Boston Transcript.

### HE SLEPT IN SECURITY.

**The Tonic a Small Boy Used For His Weak Feeling.**

There is a 5-year-old boy in Massachusetts avenue who is of the blood of patriots. His grandfather was in both the Mexican and civil wars, and his father was also a soldier, consequently the little fellow has heard much "flag" talk in his short life and has exalted ideas of its protective qualities. He was the baby of the family till very recently and occupied a crib bed in his mother's room. When the new baby came, Harold was put to sleep in a room adjoining his mother's, and as he had never slept alone before his small soul was filled with nameless fears which he was too proud to tell in full.

"It's mighty lonesome in here, mamma," he called the first night after he had been tucked in his little white bed.

"Just remember the angels are near you and caring for you," replied mamma from the outer room.

"But, mamma," he objected, "I ain't acquainted with any angels, and I'd be scared of them if they came rustling round, same as I would of any other stranger."

"Now, Harold, you must go to sleep quietly. Nothing will hurt you."

"Can't I have the gas lighted in here?"

"No; mamma doesn't think it necessary, and it is not healthy."

There was silence for some time, and then the small voice piped up again. "Oh, mamma!"

"Yes, dear."

"May I have grandpa's flag?"

"Why, what for? I want you to go right to sleep."

"Please, mamma!" and a small nightgowned figure appeared at the door. "Just let me stick the flag up at the head of my bed, and then I'll go right to sleep, indeed I will! You know the other night grandpa said at the meeting that 'under the protecting folds of the flag the weakest would be safe,' and I feel mighty weak, mamma."

He got the flag, and when his mother looked in on him an hour later he was fast asleep, with a fat little fist under his red cheek, holding fast the end of the "protecting" flag.—Washington Star.

### "JES' COMMON OLE MISERY."

**Why Rufus Suddenly Decided That He Didn't Have Paralysis.**

The boy's name is Rufus, and he was busily engaged in polishing the doctor's shoes while he was being shaved. As was his custom, the doctor said, "How are you feeling, Rufus?"

"I ain't much. Kindly poohly, thank you, doctah," answered the boy.

"What's the matter?"

"Paralysis."

"What?"

"Paralysis."

Had the doctor not been so well acquainted with the negro race, he might have allowed himself to show astonishment. As it was, he determined to see what would result from further inquiries.

"Where's your paralysis?" he asked kindly.

Rufus was drawing a rag swiftly across the left shoe.

"In the right hip, doctah," he answered.

"It's probably rheumatism," suggested the physician.

"No, indeed. It's paralysis. I reckon I knows rheumatism and I knows paralysis. This is suttenly paralysis."

The doctor drew a good sized pin from the lapel of his coat.

"Well, Rufus," he said seriously, "there is only one way to tell. Come here. I'm going to jab this pin in your hip. If it hurts, then you have rheumatism. If you don't feel it, then you are right, and you have paralysis."

The boy did not rise, but drew the rag thoughtfully across the shoe. Finally he said:

"Doctah, I reckon you mus' know more about them things than I do. I know it ain't nothin but jes' common ole misery."—Kansas City Star.

The greatest healer of modern times is Banner Salve for cuts, wounds, sores, piles and all skin diseases. It is guaranteed. Use no substitute. Rider & Snyder.

### The Massillon Market.

### Notice of Appointment.

The undersigned has been duly appointed executors of the estate of Henry J. Lonas, late of Stark County, Ohio, deceased.

Dated the 11th day of July, 1901.

HENRY J. LONAS,
LAURA A. HUSTON,
Executors

**WEAKNESS**

**OF MEN AND WOMEN**

Could we read the hearts of every man we meet, what a load of sorrow and despair would be disclosed. **Indiscretions and Blood Diseases** have caused more physical and mental wrecks than all other causes combined. They strike at the foundation of manhood; they sap the vital forces; they undermine the system, and not only do they often disrupt the family circle, but they may even extend their poisonous fangs into the next generation. If you have been a victim of early sinful habits, remember the seed is sown, and sooner or later you will reap a harvest. If your blood has been diseased from any cause do not risk a return later on. **Our New Method Treatment** will positively cure you and you need never fear any return of the disease. We will give you a guarantee bond to that effect. We would warn you sincerely against the promiscuous use of mercury, which does not cure blood poison but simply suppresses the symptoms.

**WE CURE OR NO PAY.**

**Don't Let your Life be Drained Away,** which weakens the intellect as well as the body. There is no room in this world for mental, physical or sexual dwarfs. Our New Method Treatment will **Stop all Unnatural Losses. Purify the Blood, Strengthen the Nerves, Restore Vitality,** and make a man of you. If you are in trouble, call and consult us. **Consultation is Free.** We treat and cure **Drains, Blood Diseases, Varicocele, Stricture, Unnatural Discharges, Gleet, Kidney and Bladder Diseases.** No cutting or operations. No detention from business. Everything confidential. **Consultation Free. Books Free. Question Blank Free for Home Treatment.**

NEWSPAPERARCHIVE®

# LOCAL HAPPENINGS.

**Discovered this Week by Independent Investigators.**

Born, to Mr. and Mrs. Richard Weiss, of Second street, a daughter.

Born, to Mr. and Mrs. Andrew Ertle, of South Erie street, a daughter.

Mrs. J. C. Lowe and son are the guests of relatives and friends in Orrville.

Wooster business men will hold their annual picnic at Cedar Point on Wednesday, July 31.

Work on the Navarre extension of the street railway is progressing rapidly Nearly a mile of track has already been laid.

Mrs. Ann Williams, of Lackawanna, Pa., is the guest of her aunt, Mrs. Elizabeth Derbyshire, in North Summit street.

The Lutheran Sunday school, of West Brookfield, will give a cantata entitled "Columbia," in the church, Tuesday evening.

The funeral of the late Cranmer A. Cosier took place from the residence, 33 Park street, at 2 o'clock Friday afternoon. The Rev. Dr. J. I. Wilson officiated.

H. E. Sinnock, the South Erie street tree man, has been engaged to trim the trees in and about the residence of President McKinley, in Canton. He will begin work Monday.

The Epworth League of the Wesley M. E. church will hold a lawn fete on the church lawn Tuesday evening, July 16. Ice cream, cake, lemonade and candy will be served.

Mrs. Samuel Doughty, of Norwalk, is a guest at the residence of Mr. and Mrs. John Doughty, in Dietrick street. She will visit with relatives in Canal Dover before returning home.

The members of the Massillon Baptist church will hold a farewell social in honor of Mr. and Mrs. J. C. Ford in the church parlor on Monday evening, July 15, from 7:30 to 10 o'clock. Friends are cordially invited to be present.

A unique entertainment will be given some time this fall by the Ladies' Aid Society of the Presbyterian church. It is called "A Trip Around the World." The "trip" will include five different countries and will be made at the homes of five different people.

Among the list of names of the injured in the terrible wreck on the Chicago & Alton railroad at Morton, Mo., Wednesday, in which sixteen lives were lost, appears those of Eli Walker and Mrs. Katherine Walker, of Louisville, O. Neither were seriously injured.

Miss Nellie Porter, daughter of G. N. Porter, has arrived from Knoxville, Tenn., where she is a teacher in the public schools She will visit in the city for a week or more. Miss Porter is a graduate of the Massillon public schools and also of the Tennessee State Normal school.

The marriage of Charles Broman, of this city, and Miss Luella Pille, of Pittsburg, took place at the home of the bride, Wednesday. Among the guests were the Massillon relatives of the groom. Mr. and Mrs. Broman will reside in this city, where Mr. Broman is employed as a glassblower.

Salem capitalists have purchased several farms just east of Alliance, on the Alliance-Sebring electric railway route, and will open a summer resort. A large hotel will be built and a thoroughly modern picnic ground will be fitted up. Work was begun Tuesday on the electric line and will be pushed to completion.

A traveling man, careless in his driving, started a local livery horse to running away Thursday. The man made his escape. The horse was found lying on a bridge east of the city. It had caught one foot in a hole in the planking, and much sawing was necessary to extricate it. The horse was not injured, but the buggy and harness were badly damaged.

Charles P. Mannweiler and Miss Elizabeth C. Steever, both of this city, were quietly married at St. John's parsonage on Wednesday evening by the Rev. J E. Digel. The attendants were Miss Carrie Nicewander and Peter Fuchs. After the ceremony a reception was held at the home of the groom's parents, Mr. and Mrs. John Mannweiler, 231 West Tremont street. The bride formerly lived at Elton.

The Woman's Home Missionary Society of the First M. E. church met Wednesday afternoon and elected the following officers for the ensuing year: Miss Cynthia Merwin, president; Mrs. J. I. Wilson, first vice president; Mrs T. Clarke Miller, second vice president; Mrs. Laura Yost, treasurer, Mrs. W. T. Holloway, mite box treasurer; Mrs. W. Graham, recording secretary.

The funeral of the late Mrs. Catherine Rudy took place from the home of Mrs S. P. Killinger, in Jackson township, Friday morning at 9:30. The Rev. Mr. Willard, pastor of the Reformed church of Canal Fulton, assisted by the Rev. Mr. Elliott, of the Canal Fulton Presbyterian church, conducted the services. Those present from this city were Mr and Mrs. C. A. Rudy, Mr. and Mrs. S. A. Conrad, Mrs. Eliza Bachtel, Edward H. Bachtel and C. A. Conrad.

The climate and crop bulletin of the weather bureau for the week ending July 8, in Ohio, is as follows: Heavy and damaging showers in northwest on 4th; haying progressing, crop fair; oats good, but some rust; wheat being harvested, some ripened too fast, much badly injured by wind and hessian fly, some fields in north too wet for binder, many chinch bugs; cultivated and well drained corn fields greatly benefited by high temperature, but many uncultivated fields have uneven stands and are in poor condition: tobacco in fair condition; potatoes and fruit unfavorably affected by high temperature: potatoes, some blight and decay; fruit decaying to some extent and falling increased.

## COUNTY SEAT NEWS.

**Amount of Dow Tax Paid and Its Apportionment.**

CANTON, July 11.—The annual report of County Clerk Casselman, which will be completed in a few days, will show that during the year ending June 30, 658 cases were disposed of, 34 of which, however, are still pending in the circuit court. This leaves but 293 cases still on the docket, 32 of which are criminal. This is an unusual record, and it is said to be due mainly to the exactions of Judges McCarty, Taylor and Ambler, who were on the bench during that period. Attorneys were required to have their cases ready for trial. The docket has been gone over by Deputy Clerk Bliss and Judge McCarty, and the entries made that had not yet been placed upon the docket. The 293 cases that remain are those that are supposed to be for trial and will appear on the bar list for the next term, together with the new cases filed.

County Auditor Reed has completed the compilation of the figures showing the net amount paid in on the Dow tax for the six months ending June 20. The total amount collected was $47,289.20, which has been apportioned as follows:

| | |
|---|---|
| To the state | $14,172.35 |
| County poor fund | 10.033.74 |
| County fund | 931.86 |
| Canton | 11.175.26 |
| Massillon | 5,748.84 |
| Alliance | 2.299.59 |
| Canal Fulton | 550.13 |
| Navarre | 507.65 |
| Louisville | 311.37 |
| Beach City | 169 30 |
| Osnaburg | 212 42 |
| Magnolia | 84.65 |
| Waynesburg | 253.95 |
| Jackson township | 126.98 |
| Tuscarawas township | 211.63 |
| Canton township | 217.68 |
| Lawrence township | 250 05 |
| Washington township | 31.75 |

Final account has been filed in the estate of Mary A. Porter, of Lawrence township.

Henry Lonas and Laura A. Huston have been appointed the executors to the estate of Henry J. Lonas, of Tuscarawas township.

Final account has been filed in the guardianship of Jacob Kurtz, of Massillon.

**Crop Statistics of Stark County Compiled by the Auditor.**

CANTON, July 13.—The compilation of the crop statistics of Stark county, as returned by the assessors, has been completed by the county auditor. The report shows the following. The number of acres cultivated was 203,088; pasture, 48,763 acres; woodland, 28,179; waste, 6,247; total acreage, 281,277. Wheat, acres planted, 45,594, yield, 571,584 bushels; rye, acres planted, 241, yield, 3,650 bushels; buckwheat, acres planted, 49, yield, 509 bushels; oats, acres planted, 29,650, yield, 1,179,203 bushels; corn, acres planted, 31,210, yield, 1,325,034; potatoes, acres, 3,736, yield, 382,709, onions, acres, 13, yield, 2,641 bushels; other than clover, acres 2,519, tons of hay, 2,991; clover, acres 321, tons of hay, 371; tobacco 5, pounds 5,116. The statistics also show: Milk, gallons sold for family use, 1,091,387; butter, 1,021,161 pounds; eggs, 887,566 dozen; maple sugar, 498 pounds, maple syrup, 9,120 gallons; honey, 2,710 pounds; fertilizer, 3,301,750 pounds, cost $35,602; apples, 433 374 bushels, peaches, 3,847 bushels; pears, 1,294 bushels; cherries, 482 bushels, and plums, 103 bushels. The returns show 9,145 head of horses; 25,153 head of cattle; 19,127 sheep; 19,717 hogs. There were 117,925 pounds of wool produced in the county during the year.

The journeymen barbers of the city will hold a meeting next Tuesday evening, for the purpose of organizing a union. Frank J. Ballard will organize the men, and they propose to get down to business so soon as they can get their charter from the national body.

Fleetfoot tribe, of the Improved Order of Red Men, have arranged to go to Massillon next Wednesday, to put eight candidates of the Massillon tribe through the warrior's degree.

John Brown, who escaped from the workhouse last fall, where he was serving a term for having assisted in a jail delivery at Lisbon, was arrested at East Liverpool on Friday. He will be returned to the workhouse to finish his sentence.

The News-Democrat has purchased from Receiver Smith the good will, subscription list, etc., of the defunct Canton Evening Courier.

## MRS. DRESON INSANE.

**Removed to the State Hospital on Tuesday.**

Mrs. Sibila Dreson, of 103 Canal street, was Wednesday taken to the state hospital for the insane. The authorities were notified by relatives that Mrs. Dreson had been acting queerly for some time past. Probate Judge Aungst conducted the examination, which took place at the mayor's office.

It is easier to keep well than get cured. DeWitt's Little Early Risers taken now and then will always keep your bowels in perfect order. They never gripe but promote an easy, gentle action. C. W. Cupples, 139 W. Tremont St.: Rider & Snyder, 12 E. Main St.; L. A. McCuen, 5 W. Main St.

Science has found that rheumatism is caused by uric acid in the blood. This poison should be excreted by the kidneys. Foley's Kidney Cure always makes them well. Rider & Snyder.

The piles that annoy you so will be quickly and permanently healed if you use DeWitt's Witch Hazel Salve. Beware of worthless counterfeits. Charles W. Cupples, 139 W. Tremont St.: Rider & Snyder, 12 E. Main St.; L. A. McCuen, 5 W. Main St.

# HOSPITAL NOTES.

## Runaway Patient Makes Trouble for Marshal.

## CHANGE IN DINING ROOM.

**Ray Markle Goes on the Wards—July Meeting of the Board will be Held Thursday Next—Other Items of Interest From the Institution.**

Attendants Friday evening returned to the state hospital with Enos Pyson, a runaway patient in charge. Pyson was found at Dalton. He led the attendants a merry chase. On Thursday the hospital authorities advised the Dalton marshal to take into custody Pyson, who was then thought to be with his sister, Mrs. Harvey Santmyer. The marshal did so, but before the attendants arrived in the village Pyson had slipped away from him. The second pursuit, ending in the capture of Pyson, was in progress all day Friday. Pyson is 26 years old. He has been at the hospital for a year. Pyson's chief trouble seems a desire to drive horses to death, or to trade good horses for poor ones.

Friday the first regular game was played on the new ball grounds laid out by Engineer Haerlin. The ground is in the elbow of the woods east of the new cottages and is probably the best grounds in this section. The game yesterday was simply a practice game between two of the teams of the institution. A game will be arranged with Crystal Spring for the near future. This team has played two games with the hospital this season, and the score was very close on each occasion. The hospital team won both of the games.

The woods which will be converted into a park, and where all of the outdoor concerts and amusements arranged for the benefit of the residents on the hill will be held, is having its final clearing. The old logs and stumps are being burned, and all of the rubbish will be out of the way in a short time. This spot will be one of the finest on the grounds when it is completed and will doubtless be greatly enjoyed by the residents.

The indications at present are that the new assembly hall will not be completed for at least two months and that the dedication will not be as early as was at first supposed. The plastering has not been done and that will take some time No steps will be taken toward making arrangements before the meeting of the board in September. At that time the end will be in sight, under ordinary circumstances, and the date can be definitely settled upon.

Ray L. Markle who has for some time been in charge of the dining room at the institution has been transferred to one of the wards. Mr. and Mrs. Arthur Fritz arrived this week from the Newburg institution and will have Mr. Markle's former charge. Mr. Fritz is quite an addition to the force. He is a good ball player, playing behind the bat. He has played in a number of the good amateur teams of Cleveland and will make a good man to relieve Catcher Dyson on the hospital team. He will also be a member of the band, playing tuba.

The July meeting of the board has been called for Thursday next. There is nothing of particular importance at the present time to come before the body more than the payment of the regular bills and the inspection of the progress on the buildings now in course of construction.

The work on the new cottages on the south side is coming on in a satisfactory manner. The buildings will be read for occupancy early in the winter.

**What Two Cents will do.**

It will bring relief to sufferers from asthma or consumption, even in the worst cases. This is about what one dose of Foley's Honey and Tar costs. Isn't it worth a trial. Rider & Snyder.

"I am indebted to One Minute Cough Cure for my present good heath and my life. I was treated in vain by doctors for lung trouble following la grippe. I took One Minute Cough Cure and recovered my health." Mr. E. H. Wise, Madison, Ga. Chas. W. Cupples, 139 W. Tremont St.; Rider & Snyder, 12 E. Main St.; L. A. McCuen, 5 W. Main St.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure. "For years I have been greatly bothered with kidney trouble and enlarged postrate gland. I used everything known to the profession without relief, until I was induced to use Foley's Kidney Cure. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles, for I can honestly state I have prescribed it in hundreds of cases with perfect success." Rider & Snyder.

**Every family should have its household medicine chest, and the first bottle in it should be Dr. Wood's Norway Pine Syrup, nature's remedy for coughs and colds.**

Thos. W. Carter, of Ashboro, N. C., had kidney trouble and one bottle of Foley's Kidney Cure effected a perfect cure, and he says there is no remedy that will compare with it. Rider & Snyder.

James G. Ambertof, Della, O., writes: "I had an obstinate sore on my face which everything else failed to heal. After one application of Banner Salve it began to heal and after three applications it was entirely healed, leaving no scar. Rider & Snyder.

## RAILS LAID HALF WAY.

**A Stone Culvert will be Necessary at Half Way Gully.**

Rails of the Navarre extension of the electric railway system have been laid as far as the half way bridge. But for this one point, at which there is a deep gully, extension could be completed in a week or ten days. It is believed, however, that an immense stone culvert will have to be built at the gully, and much time will be required for the work. Men have been gotten in the places of the laborers who struck recently.

# WANT BETTER LAWS

## Railway Enginemen Appoint Committee.

## TO MEET AT COLUMBUS.

**Jay S. Davey Elected President of the B. of L. F.—The Bartenders Elect Officers, and Decide to Sit for a Group Picture—Notes of Other Unions.**

The Brotherhood of Locomotive Firemen of this city has elected the following officers: J. Davey, master fireman; S. W. Ashbolt, secretary: Fred Westcott, collector: G. Turner, A. Z. Wheeler and A. Reynolds, trustees: R. Needham, J. Mauder and S. Gunn, protective board; Dr. Dimon, medical examiner: F. Westcott, delegate to the Columbus legislative convention.

The convention will be held for the purpose of discussing such legislation as is deemed necessary for the proper protection of enginemen. A committee of three will be appointed to remain in Columbus during the entire session of the state legislature to lobby in favor of these measures. It will be noted that many of the names appearing in the foregoing are those of locomotive engineers. All were at one time firemen, however, and many retain membership in the firemen's organization.

BARTENDERS' ELECTION.

At the Friday evening meeting, held in Schneider's hall, the Bartenders' Union decided to meet in the city park at 6 o'clock Sunday evening and have a group photograph taken. A cut for the souvenir Labor Day programme is to be made from the photograph. The following officers were elected: J. Bullock, president: J. Moseman, vice president: George Hering, recording secretary: William Wagner, financial secretary: A. Deck, chaplain: P. Geis, inspector: L. Mahlman, inside guard: A. Miller, William Umbenhower, M. Harrold, trustees; J. Levi, William Wagner, L. Post, P. Geis, A. Miller, delegates to the Trades and Labor Assembly; J. Moseman, H. Lloyd, E. Griffith, A. Frantz, A. Deck, alternates.

WILL KEEP AT IT.

Herman R. Hintz says that another meeting of boot and shoemakers will be held next week, and again an effort made at organization. The attendance upon the last meeting was not large enough to warrant action being taken.

NO MEETING LAST NIGHT.

No meeting of the glassware carriers and packers was held Friday evening. There was a misunderstanding somewhere.

## FIENDISH FARMERS.

**Quarrel Over Widening a Road Leads to Attempted Murder.**

The Canton News Democrat, of Friday, gives an account of a fiendish attempt to murder John Rauh, a farmer living near Osnaburg, the result of a quarrel over the widening of a road, in which Rauh has incurred the enmity of his neighbors, who were opposed to the improvement. Last Saturday Rauh was in Canton on business, and on returning home took with him his brother, Samuel Rauh, with his wife and child. When they arrived at the Rauh home they drove up to the usual place of hitching horses, and Samuel Rauh was the first to alight, the others following immediately. Samuel noticed just at his feet a sputtering light and stooping down picked it up. He was horrified to discover that he had in his hand a stick of dynamite with a burning fuse attached to it. He immediately threw it from him and called out a warning to the others. The dynamite had not struck the ground until it exploded with fearful force, stunning for the moment the persons standing near by. After the roar had died away, all the parties distinctly heard several persons running away from the vicinity. The horse which was attached to the buggy became frightened at the explosion and started to run off. It was blind, and in its fright ran against the barn and broke its neck, dying instantly. The buggy was demolished. It was discovered after the excitement had died away that the windows in the house had been broken by the force of the explosion and a great hole had been torn in the ground beneath where the bomb had exploded. There is no doubt that if the dynamite had exploded where it was lying that every person in the party would have been instantly killed.

Just what efforts are being made to discover the guilty parties has not been made public, and none of the authorities could be seen to ascertain. The matter has just leaked out in the community, and it has caused intense excitement. Everyone condemns such an attempt at revenge and if the perpetrators are discovered they may be dealt with summarily by the people of the community in which Mr. Rauh lives.

Kidney Diseases
CURED THAT HAD BEEN pronounced incurable
Mr. G. A. Stillson, a merchant of Tampico, Ill. writes FOLEY'S KIDNEY CURE is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I, myself am able to testify to its merits. My face to day is a living picture of health, and your Kidney Cure has made it such I had suffered twenty-seven years with the disease, and to day I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities.
